THE PRACTICAL NURSERYMAN.

A TRADE JOURNAL

Vol. 3.

HUNTSVILLE, ALA., JULY, 1895.

No. 7

THE PRACTICAL NURSERYMAN.

PUBLICATION OFFICE:

HUNTSVILLE, ALABAMA.

W. F. HEIKES, Editor and Manager

Issued Monthly. Sent only to those in the trade. Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be handed in one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

TO ADVERTISERS.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted. We guarantee a regular monthly circulation of 4,000.

We purpose to mail this paper to every nurseryman, florist and seedsman in the United States, and to leading firms in the same vocations in foreign countries. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments

The American Association of Nurserymen.

The annual convention was held at Indianapolis, June 12th and 13th. The attendance was good, and the meeting was one of the most interesting and valuable ever held. Any nurseryman not already a member, should join the Association without delay and secure the printed transactions. The officers elected for the ensuing year are as follows: President, Silas Wilson, of Atlantic City, Iowa; Vice-president, Geo. A. Sweet, of Dansville, N. Y.; Secretary, Geo. C. Seager, of Rochester, N. Y.; Treasurer, N. A. Whitney, Franklin Grove, Ill.; Executive Committee, C. L. Watrous, Des Moines, Iowa; Irving Rouse, Rochester, N. Y.; R. C. Berckmans, Augusta, Ga. Chicago was chosen as the next place of meeting. Treasurer Whitney reported a surplus of \$1500 in the treasury.

Open Letters.

VINEYARD, GA., JUNE 21, 1895.

MR. W. F. HEIKES, HUNTSVILLE, ALA.

DEAR SIR—I send you by express today a basket of Triumph peaches. We trust same will reach you in good condition. The Triumph goes even ahead of what we expected—especially as to size; ripens here with our Alexander. Our season

here is very late this year. Triumph hugs very firm to stem, foliage heavy, globose glands. The trees from which these specimens were picked were heavily loaded and only two years old. Yours truly,
J. D. HUSTED.

FORT VALLEY, GA., JUNE 26, 1895.
MR. W. F. HEIKES, HUNTSVILLE, ALA.

DEAR SIR—Yours of the 21st received, and I went to Vineyard yesterday to see the Triumph peach in fruiting. It ripens there right with the Alexander, and is more than one-half larger than that variety. It is a very dark yellow peach, ripens well to the pit, but not so free as the sample I tested last year. From careful inspection of many different trees I was very favorably impressed with its vigor, hardiness, productiveness and large size of the fruit for one so early. Such a large yellow peach, coming so early, must be a valuable market variety, and I think we can all be safe in propagating and selling it. Yours very truly,

J. H. HALE.

The Triumph peaches were received from Mr. Husted in good condition on the 23d. In size they average considerably larger than Alexander; color yellow, mostly overspread with mottled red, with very dark red cheek; flesh yellow; freestone if well ripened upon the tree. A yellow peach ripening as early as Alexander is the thing long wished for by the peach grower, and Mr. Husted, the originator, deserves a monument for this triumph over nature's deep reluctance to produce a yellow peach so precocious. Georgia peach growers are making arrangements to plant the trees in large numbers.

JULY 1ST.—Another basket of Triumph peaches received from Mr. Husted with a note saying: "Begun picking on the 18th and finished on the 28th." The last picking, judging from the samples received, compare well in size and beauty with the first to ripen.

Stark Bros. report that the Japanese varieties, Yosobe and Red June, bore well at Louisiana, Mo., this year. The late Spring frost which damaged other fruits so badly did not injure them. The extremely early sorts of Japanese plums seem to stand late frosts better than varieties ripening later. Push the early sorts. They ripen before Wild Goose or any of the European plums.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

THE HUNTSVILLE WHOLESALE NURSERIES.

 WRITE TO US FOR PRICES BEFORE BUYING ELSEWHERE.

We are making a new departure for this month in discarding quotations. We wish to give our customers who will write to us naming list of wants, some exceptional bargains, and we do not wish to have any figures in the way to begin with.

We have the reputation of holding to our prices when printed. Some of our competitors have taken advantage of us in this respect by quoting under our figures. We wish a month of freedom now to make quotations, and we expect not only to meet all competition, but to make it an advantage to customers to deal with us.

We have the largest and finest stocks of Standard Pears, Plums and Cherries in the country. We sell any variety alone or in assortment as desired.

Our Kieffers are root-grafted on French pear seedlings, Japan pear seedlings and on their own roots. We can give customers their choice, and will be glad to send samples if desired. Our trees run more uniform in size and regular in stand than any we have ever seen. We begin digging September 20th, and can ship in time to meet the wants of Northern dealers. We have Special Time arrangements to St. Louis and Cincinnati.

This is the nurseryman's paradise. There are no injurious insects on nursery stock. No slugs on pears; no aphis on cherries. This is a fact worth considering. There are some peach borers; but every body knows how to get at them.

The season here has been a very good one for growth. Sufficient rain has fallen so that the growth has not been checked, and our stock never looked finer.

All in need of fine 2-year DeSoto, Hawkeye, Forest Garden, Cheney, Weaver, Quaker and Wolf, can get them here. We have the finest block a tree plow was ever pulled through. They mature early and can be dug in good time to meet the wants of early shipments North.

SHIPMENTS.—We begin digging September 18th to 20th.

The Sneed peach has established its reputation as an earlier peach than Alexander. It is a week to ten days earlier, and brought the highest prices in market. We have a good stock of them for sale.

The Koonce pear is earlier and better in quality than Early Harvest. The tree is equally as healthy and free from blight. We have one year trees of it for sale.

From five dollar's worth of wood of the Wickson plum bought from Mr. Burbank last Winter, we now have sixty trees growing. We can get a good many buds from these trees. We will bud this sort on contract at a reasonable price. Write for prices.

The Milton plum is a seedling of the Wild Goose, three weeks earlier in ripening. We believe this to be a great acquisition. The Silas Wilson Co., Atlantic, Iowa, have trees of it for sale.

We believe in clean and constant cultivation. There is no grass growing in our nurseries. This means a good deal where there are over 800 acres to cultivate.

We can supply a few hundreds of Triumph peach. Prices upon application.

Our customers all say that our Cherry trees are better rooted and better graded than any that can be had elsewhere. They are consequently worth more money; but we do not charge more than others for the same grades. We will be glad to send samples of our trees to any one who has not bought of us, nor seen our trees.

We invite attention to our large stock of Mulberries grown at our branch nurseries at Biloxi, Miss. It is a remarkable fact that they mature their wood at Biloxi much earlier than at Huntsville or further North. They are in fine shape for digging by the 1st of October.

The demand for Japanese Plums, especially for Willard, Abundance, and Burbank, will be heavy this year, and as they become better known the demand will be greatly increased for Yellow Japan, Berckmans, Yosobe, Normand, Satsuma, Bailey, and Kerr. Our stock of these trees on Marianna plum stocks is very large, and nurserymen who order in reasonable time can depend upon us to supply their wants.

The Huntsville Wholesale Nurseries.

ADDRESS ALL CORRESPONDENCE TO

W. F. HEIKES, MANAGER,
HUNTSVILLE, ALABAMA.

Fall of 1895 and Spring of 1896.

Tract of 1,000 Acres. Over 800 Acres closely Planted in Nursery Stock. Nothing over Two Years Old.

The publication of this list abrogates previous quotations.

Except where prices are agreed upon, these quotations are subject to change without notice.
See Terms and Conditions governing these quotations on another page.

We erase our quotations this month, and intend to give some special bargains to those who will write us, stating their wants in the line of stock we grow. Write us before buying elsewhere. We intend to meet all competition and do a little better for our customers than others will.

KIEFFER--Two Years.

Grafted on French Seedlings, Japan Seedlings, or Own Roots, as may be preferred.

These were very strong, handsome one year trees, mostly 4 to 5 feet high, and many of them $\frac{5}{8}$ inch calibre. They were grown from root-grafts, transplanted at one year old, cut back to the ground and one shoot allowed to grow. They have the appearance of two year buds, and are very fine roots and tops.

HUNTSVILLE ALABAMA

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy rees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from $7\frac{1}{2}$ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment, to responsible

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, Bank, if possible, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent. per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange," or add $\frac{1}{4}$ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us, and without our orders for their disposition.

FOR SALE.
